## ABOUT ME

I am a passionate and self-motivated Computer Science Engineering student currently pursuing my B.Tech at Darshan Institute of Engineering & Technology, having completed my second year. I have hands-on experience working with the MERN stack, Java, and Flutter, and hold a certification in Java from HackerRank. I am also familiar with version control tools like Git and GitHub, and I continuously seek opportunities to learn and contribute to real-world projects

## PROJECTS

### BookYourCinema – Movie Ticket Booking System (Ongoing) | [GitHub](#) (September – 2024) - Current

- Implemented **user authentication** (signup/login) using JWT and crypt for secure access.
- Developed the **cinema admin interface** to add and manage movie listing dynamically.
- Designed backend APIs using **Express.js** and **MongoDB** for data handling and storage.
- Frontend is in progress using **React.js** focusing on a responsive and intuitive booking interface.

### Saathi - Matrimonial Mobile Application | [GitHub](#) February - 2025

- Developed a Flutter-based mobile application for matchmaking, with a clean UI and smooth user flow.
- Used **SQLite** for local data persistence and integrated REST APIs for dynamic content handling.
- Added "favorite" feature to allow users to save profiles for future reference.
- Designed with a mobile-first approach to ensure responsiveness and smooth user experience.

### Student Course Registration System | [GitHub](#) August - 2024

- Built a **Java-based CLI application** that allows students to **register, log in, and manage their course enrollments**.
- Integrated with **Microsoft SQL Server** to store and manage student and course data using JDBC.
- Implemented features like **course listing, course registration** and **deregistration** with **database-backed persistence**.
- Followed **Object-Oriented Programming (OOP)** principles to ensure **modularity**.

### Contact Manager Application | [GitHub](#) May - 2024

- Developed a user-friendly Contact Manager app demonstrating essential contact management functionalities.
- Enabled full CRUD operations including **adding, editing, deleting, and viewing** contacts.
- Integrated **search functionality** to quickly find contacts by name or phone number and
- Implemented sorted storage to display contacts alphabetically for improved usability.

## TECHNICAL SKILLS

**Languages:** Dart, Python, JavaScript, HTML/CSS, Java, C

**Databases:** MongoDB, Microsoft SQL Server

**Web Technologies:** MERN Stack (MongoDB, Express.js, React.js, Node.js)

**Mobile Development:** Flutter

**Tools & Platforms:** Git, GitHub, SQL Server Management Studio

## ACHIEVEMENTS

- Teaching assistant for Office Automation Tools (OAT) in Semester 4.
- Ranked in **top 29% in LeetCode** contest, solved 135+ problems solved in Data Structures and Algorithm (DSA). [[jevinmorad](#)]

## EDUCATION

### Darshan University

B.Tech in Computer Science Engineering (2023 – Present)

Current CPI: 8.77 | Currently in 2<sup>nd</sup> year

**JEE NTA Score – 93.48**

### Tapovan Science School

12<sup>th</sup> Grade – Science Stream | 70% | Year: 2023

## PROFESSIONAL & SOFT SKILLS

- Problem-solving** mindset with a focus on writing clean, efficient code.
- Ability to **adapt quickly** to new technologies and work in **fast-paced environments**.
- Excellent **time management** and organizational abilities, balancing academics and personal projects.
- Demonstrated **leadership** as a teaching assistant for Office Automation Tools (OAT).
- Detail-oriented and passionate about **continuous learning** and **self-improvement**.
